Please take note that our policy is one of the continuous improvement. We reserve the right to change specifications & finishes of the models illustrated in this catalogue at any moment without prior notice

We started out in the early 1990's as an office chair components manufacturer, with one main focus, that was to produce well-made spare parts that would perform immaculately in various applications. Since then, our little company has grown from strength to strength. Today, we are somewhat a respectable business concern that knows how to manufacture an ever-expanding range of well-designed, durable & functional seating suitable for a wide range of commercial & hospitality settings. From healthcare to educational, from corporate to cafeteria, each can be supplied with a design suited to its functional & aesthetic requirements.

We are confident in saying that we have the right products & services to serve you well, whatever your needs may be. This is because we understand the ever-changing world of fast moving furniture trends & preferences. We love what we do & constantly engage with your world. Whether you are an architect, interior designer or contract specifier, we know what you are looking for in a partner who can help you make your environment works. As our slogan says it all – **"We Change Seating Environment"**, our motto is to provide you the perfect seating with style.
